

# EW SERIES

Linear sides and prismatic bottom combined with shallow profile provide an ideal economy luminaire for low brightness applications such as schools, offices and corridors.

## Dimensional Data

## Options and Accessories Add Suffix

<b>DIM</b>	Dimming Ballast
<b>EM</b>	Emergency Ballast (1 lamp)
<b>•EM/2</b>	Emergency Ballast (2 lamp)
<b>RFI</b>	Radio Interference Filter
<b>FS</b>	External Fuse and Holder
<b>REF</b>	Internal Polished Aluminum Reflector
<b>REFS</b>	Internal Specular Silver Reflector

•Note: Consult Factory on Compatibility **EM/2** Option.

## Specifications

**Mounting:** Units may be surface or pendant mounted individually or in continuous rows. For continuous row mounting end knockouts are removed and fixtures are joined together with chase nipples. Housing then forms continuous wireway.

**Construction:** Fixture housings are die-formed of heavy gauge steel to insure uniformity and dimensional stability.

**Shielding:** Linear sided prismatic lens of extruded acrylic for controlled light. Shielding hinges from either side for ease of maintenance without use of tools.

**Finish:** All metal parts are thoroughly cleaned and treated to prevent rust and deterioration with a phosphate coating applied in a five stage process. Surfaces are then electrostatically sprayed with high quality white enamel to provide a minimum reflectance of 87%.

**Wiring:** Standard ballast are 120 volts, 60 hertz.

**Approval:** All units are Underwriters' Laboratories (UL) approved.
