

RECESS TROFFER SERIES 83

High efficiency 2' x 4' recessed grid luminaire to conform to utility rebate programs "83%" requirements.

Dimensional Data

Specifications

Mounting: Units are designed to be installed into recessed inverted T-Bar ceilings. Ends contain built-in earthquake clips for added support. All units have wire hanger tabs for independent wire suspension.

Construction: Fixture housing is die formed of heavy gauge steel in conjunction with die embossments to insure maximum rigidity and dimensional stability. Edges are rounded for optimum safety.

Shielding: 100% virgin acrylic is standard. All shielding options are completely enclosed in a heavy gauge steel frame which is invisibly hinged.

Finish: All metal parts are thoroughly cleaned and treated with a phosphate coating to prevent rust. Surfaces are electrostatically sprayed with high quality white enamel for maximum reflectance.

Wiring: Access plate provides easy access through top of fixture to ballast leads. Standard voltage is univolt.

Approval: All units are (UL) listed.
